President O'Grady called the meeting to order at 9:00 A.M.

President O'Grady: We have some uplifting guests with us this morning. Mark Jones is Associate Executive Director with the Ohio Association of Elementary School Administrators, and Cheryl Jones, Principal of East Linden Elementary School. They are here to tell us more about the work they do that goes into creating a positive and rewarding school environment, and how they go above and beyond to meet the needs of our Franklin County students. Congratulations, to you Cheryl and all the hard-working teachers and administrators at East Linden Elementary on achieving this year's Hall of Fame status. Welcome Mark and Cheryl.

Mark Jones, Associate Executive Director, The Ohio Association of Elementary School Administrators: We represent around two-thousand elementary, Pre-K, and middle school level administrators across the State of Ohio. We do a lot of advocacy work for them, we provide professional development for them, and one of the other things we do, we recognize the outstanding principals and schools that we have across the State of Ohio. One of those awards that we use to recognize is the hall of fame award and that is for an entire school. The process for becoming designating for a hall of fame school, it's a four-step process. It begins in the fall each year where we take nominations, either from parents, community members, colleagues, staff members who believe they have some great things happening in their building. After we receive a nomination of a school, we notify them that they've been nominated and send an application. It's a very extensive application, and they get to fill out all kinds of information about their building, sharing what they do and all the programs that must help improve student success. We take all of

those written applications and we have a committee of administrators from across Ohio; we read and score those. If the application scores high enough on that part, then we have the fourth step. After the reading, we have a visitation. We send in a team of administrators into each of those buildings and assess as well, to make sure that what was written on their application matches what we're seeing in real life. We will recognize up to ten schools this year. In 2019/2020, we recognized just eight, and Franklin County had four of those eight. We had Sutter Park Preschool in Worthington, Indian Trail Elementary in Canal Winchester, Wilson Hill Elementary in Worthington, and our fourth school, and we have the principal here with us today, Cheryl Jones, East Linden Elementary School.

Cheryl Jones, Principal, East Linden Elementary School: It's a pleasure to be here. I want to thank the Franklin County Commissioners and all the guests. East Linden, it's a pleasure to be recognized, our entire school community. We're comprised of about three-hundred students, about forty staff, and we are a hundred percent economically disadvantaged, about twenty-five percent of English language learners, and about seventeen percent of our students have disabilities. We're ninety percent African American, three percent white, five percent Hispanic and about two percent multi-ratio. At East Linden, our major focus is around academics and helping our students to show growth in their academics. With that, our staff is really engaged in helping our students and our parents to engage in learning and helping students be successful on the state standards. East Linden has shown tremendous gains over the last four years on the Ohio State Report Card, specifically in working in a collective efficacy with our staff. We showed improvement where we moved from being a lower performing school, a priority status school, and we moved to focus status this year. So, our staff is very excited about that. It does take the full support of our superintendent, Dr. Talisa Dixon, and the leadership team and so we do have their full support, and I do want to recognize them for all the support that they have shown East Linden. I just want to share with you a few of our efforts that we have worked through. You'll hear a lot about social emotional learning, and we believe that it is working on the inside out approach with our students. Specifically, we have worked with Columbus Public Health, the Columbus Care Coalition, and we have done some work with The Ohio State University TEDx around resiliency. We utilize some yoga and some mindfulness here at East Linden because we feel that's important that our students are centered and ready to learn. We work with several community partners. The one we work with the most is New Salem Missionary Baptist Church, Dr. Keith Troy. I want to thank our Ohio Association of Elementary School principals, and all the others that are being recognized for this award.
